## **New Display Package with Removable Tray**

For all product sample sets

**TUCSON, AZ—June 6, 2008**—ACS International, Inc. announces the development of a new display package designed to enhance its' customers display capabilities of showroom samples. Unlike most sample cases provided by manufacturers, the new ACS sample set features a removable tray for easy showroom display.

This new sample case (regardless of product type) includes foam inserts to protect and secure individual sample squares as well as an exterior carrying handle for easier transport. Each sample set of the granite effect product lines manufactured by ACS, including Poly Stone™, Dura Stone®, Terra Bella™ and Artistone™, will be supplied in the new display box as of July, 2008.

“We’re excited to get the new display sets out to our customers”, says Angela Kliever, Director of Marketing for ACS International. “We believe the new displays effectively highlight each color within the lines while being attractive on its own for showroom displays.”

The traditional sample boards provided by ACS will be available for a limited time. Single sample squares will continue to be available for customers.

### **About ACS**

Established in 1988, ACS International, Inc. is a privately owned company located in Tucson, Arizona. The facility includes crushing and blending equipment along with a comprehensive laboratory, ensuring quality control and advancements in research and development in all our product lines. ACS domestically manufactures a broad range of products including; Terra Bella™ engineered granite using natural stones, GraniteFX™ textured silicone, Poly Stone™ spray granite, Dura Stone® a solid surface filler, Poly Chips® a solid surface chip(s) component, Granite Fill 2000 a natural mineral based cast granite filler, Featherlite® an ultra-light series of fillers. For more information, please contact ACS at 1-800-669-9214 or visit [www.acstone.com](http://www.acstone.com).
